

YOUR DONATION

RESOURCE PACKS

\$12 will provide two families with mosquito nets

These nets prevent the spread of malaria, which kills a child in Africa every 3 seconds.

\$25 will vaccinate 150 children against measles

Preventable diseases like measles and TB kill hundreds of thousands of people in the developing world every year simply because people cannot afford life-saving vaccinations.

\$50 will provide vocational training for a street child for one month

GOAL works with street children in some of the world's poorest cities. Education breaks the cycle of poverty and vocational training gives young people their chance to find a job.

\$60 will provide a displaced family with an emergency pack

A family, made homeless through famine or war, will get life-saving tools they need to survive.

Kit contains; a mosquito net, soap, clothes, water purification tablets, shelter materials and a water bucket.

\$125 will provide vocational training for a street child for one month

Street children who have to fend for themselves because they have run away from home, been abandoned, or orphaned by HIV/AIDS, will benefit hugely from this gift, which gives them a new chance at life.

\$465 will buy a hand water pump for a community

Every year, millions of people in the developing world die from preventable diseases, because they lack clean water. This gift ensures that a community will be given clean, disease free water to drink, cook with and wash in.

The figures quoted represent the average cost of projects in 2005
